Subject Passaic River meetings

Hello - I would like to be added to your email list for information about CAG and any other meetings about the Passaic River superfund cleanup. I have been studying organisms in the local waters for a few decades and am based at Rutgers Newark. Thank you.

Judith S Weis

1880's: "There's lots of good fish in the sea" W.S. Gilbert

1990's: Many fish stocks depleted due to overfishing, habitat loss, and

pollution.

2000's: Marine reserves, ecosystem restoration, and pollution reduction

MAY help restore populations.
